Score	7.8%

Class XII

Board Name	Maharashtra
Medium	English
Year of Passing	2022
Percentage	46.83%

Class X

Board Name	Maharashtra
Medium	English
Year of Passing	2020
Percentage	73.6%

INTERNSHIPS

SUMAGO INFOTECH, December 2024 - February 2025

- During my internship at Sumago Infotech, I worked on developing a LinkedIn-inspired Online Job Portal using Full Stack Java technologies. I was responsible for both front-end and back-end development. I used HTML, CSS, and JavaScript for the user interface, and implemented core functionalities using Java, JSP, Servlets, and JDBC. On the backend, I designed and managed MySQL databases to handle user data, job postings, and applications.

PROJECTS

Online Job Portal Of LinkedIn Clone, December 2024 - February 2025

- About the Project:
This project involved developing a LinkedIn-inspired job portal aimed at connecting job seekers with employers. The platform included features such as user profiles, job postings, search functionality, and networking capabilities. The goal was to create a seamless and intuitive user experience that mimics LinkedIn's core functionalities while adding unique improvements tailored to specific user needs.

Key Learnings & Highlights:

Gained hands-on experience in full-stack development, including frontend (HTML, CSS, JavaScript) and backend (Java Servlets, JSP) technologies.

Learned to implement user authentication, session management, and database integration for storing user profiles and job listings.

Enhanced problem-solving skills by debugging and optimizing the application for performance and scalability.

Enjoyed designing the UI/UX to ensure a responsive and user-friendly interface.

AWARDS AND HONOR

- Awarded the Project Excellence Award by Sumago Infotech Pvt Ltd in 2025 for outstanding performance during my internship. Recognized for excellent contribution to project development, consistent dedication, and ability to deliver high quality results under real world deadlines. This recognition was part of a certified internship program focused on industrial software development.
