Subject: Application for Student/Intern – Individual Contributor Role (Job ID: 314122)

Dear Hiring Manager,

I am writing to apply for the Student/Intern position (Job ID: 314122) at Oracle. I am currently a final-year Bachelor of Engineering student in Computer Engineering at Savitribai Phule Pune University and am enthusiastic about contributing my technical skills and passion for software development to Oracle's innovative environment.

I have strong hands-on experience in Java Full Stack Development, with proficiency in Java, Spring Boot, Servlets, JSP, JDBC, React, REST APIs, FastAPI, MySQL, HTML, CSS, and Bootstrap. During my internship at Sumago Infotech Pvt. Ltd., I worked on a full-stack Online Job Portal (LinkedIn Clone), where I implemented user profiles, job postings, application workflows, and deployed the application on Apache Tomcat while following SDLC best practices.

I am also a co-inventor of a published Indian patent titled "Intelligent AI-Driven Job Recommendation and Resume Matching System with Multi-Domain Skill Analysis." This project involved AI-based resume parsing, skill extraction, job matching, and voice-enabled job search, and strengthened my problem-solving abilities and understanding of scalable system design.

I am highly motivated, adaptable, and eager to learn, and I believe my technical foundation and collaborative mindset align well with Oracle's mission to use tomorrow's technology to solve today's challenges. I would welcome the opportunity to contribute as an individual contributor while gaining valuable industry experience.

Thank you for your time and consideration. I look forward to the opportunity to discuss my application further.

Sincerely,

Satej Rajeshirke
